

# Autumn Term Online Taster Days for Students in Year 11

Saturdays 17<sup>th</sup> October and 14<sup>th</sup> November 2020

## Overview

Exeter Maths School is a state sixth form for able mathematicians from Cornwall, Devon, Dorset and Somerset, with residential accommodation available for students from further afield.

Sign up to one of our free online Taster Days to find out more about our school and to experience our exciting and challenging curriculum. There will be a live presentation with our Head, including interactive Q&A and you will then participate in online lessons in Maths, Physics and Computer Science. Prior to the event, you will be sent a link to a video which will provide an introduction to the school. Parents and carers are welcome to join the Head's presentation and Q&A session. We will also run a separate information session for those interested in residential accommodation.

## Session Details

Please note that we are running the same event four times, so you need only sign up for the one time and date that suits you best.

Booking is essential, please visit our website to reserve your place:
