

Henry C - Football Boots

there used to be a boy in 2019
he loved to play football
but wasn't very good
and almost always fell

he practiced more and more
but never got much better
he played in training always
but never in a match

His boots were getting small
so he went to a shop
He saw some on the shelf all neat and saazzy
He tried them on and they fit he was really happy

The next thursday he went to training feeling good
Shoot, pass, score he played the best he ever had
then he thought about the boots, the boots
Of course they must be magical he thought

Then on saturday an email was posted out
"I'm on the team" he shouted
He jumped, he cheered
He was excited for the afternoon that neared

In the changing room getting ready
He realised he did not have his boots
I must have left them at home he thought
He was very angry

As he went onto the field
He was really upset
He was embarrassed about wearing his old boots
about to play his worst

The first half went terribly
At half time it was two nil
But in the talk he got a boost of energy
Like running down a hill

The second half was amazing
He scored three goals and realised
You can always play well
you just have to believe.
