

English Homework – Hope Poem

Hope and the sun

The sun

It touches everything in our land

Every blade of grass, swaying tree and budding flower

Its warm glow like a golden kiss

An uplifting caress that envelopes every animal, plant
and person

It shines like a beacon in the darkest of times and
radiates warmth for all to feel

The sun sustains us all

And it shatters the darkness

The sun gleams no matter how much time passes

Flowers bloom under the sun's nurturing gaze and they
thrust their petals towards it

Just like hope

Hope touches everyone

Everyone big or small

Hope's warm glow is like a golden kiss

An uplifting caress

That envelopes every heart and soul in our world

Hope shines like a beacon in the darkest of times and radiates warmth for all to feel

Hope sustains us all

Hope shatters the darkness

Hope continues to gleam no matter how much time passes

People grow gloriously under the nurturing influence of hope and they thrust themselves towards it

Hope is like the sun

The sun of people's hearts and souls

Both are things that fight the gloom

The sun pierces the night

Hope pierces despair

Both are rays of light

Hope and

The sun
