23rd October 2020

Dear Students, Parents and Carers

Support with Covid over the Half Term

In recognition of the possibility of Covid issues arising for families over half-term and training days (26th October – 3rd November) I am sharing the following information in order that wise, well informed decisions can be made.

If you or a member of your household has or suspect you have symptoms please use the following medical lines of support in order to keep both your family and wider community as safe as possible.

1. What do to if... (please see attachment)
2. Phone NHS 111

If medical advice means attendance at school is impacted please let us know by sharing your NHS 111 communications with us so that we are fully informed and able to take any actions necessary as swiftly as possible. **By sharing your information as soon as possible with school you will be helping us take the steps we need to with Public Health England (PHE) and the Department for Education (DfE).**

To communicate with us please use the following email address covid@spexe.org. Please provide your child's full name, tutor group and NHS advice. Our covid link will be monitored by staff during the holiday.

Please do not use this link to ask school staff for medical advice. Medical advice needs to be taken from medical experts, using the above lines of support.

In following these guidelines we will all be doing our best to keep our families and wider community as safe as we reasonably can.

Yours faithfully

Phil Randall
Headteacher

'Life to the full for everyone.'
